Summary

Senior iOS App Developer, 10 Years Experience || Expert in Swift, SwiftUI, Objective-C, Xcode, UIKit, MVVM & MVC || Mobile App Developer || AI integration

10+ Years of iOS Development Expertise
Expert in Swift, SwiftUI, and Objective-C
Worked with Leading Global Brands

Are you looking for a dedicated and experienced iOS Developer to join your team for Mobile App Development, UI/UX Design, App Optimization, or Product Management? You're in the right place.

With over 10 years of experience in iOS app development, I have successfully delivered high-quality, feature-rich applications for a wide range of clients.

:

- Swift and SwiftUI
- Objective-C
- UI/UX Design
- App Store Submission

:

Smart Home Automation Apps: Development of feature-rich apps to control and monitor IoT devices.

My expertise in product development:

Twilio, Stripe, WebSocket, Apple's in-app services, and Google Maps

XP Eats

XP Eats is a Mobile Meal Gifting app that streamlines the process of donating meals to local groups in need. Users can select vetted items from local suppliers and donate them, while XP Eats takes care of the delivery to the designated charities.

Experience

Alright Tech Private Limited
Senior Project Manager
August 2024 - Present (5 months)
Rawalpindi, Punjab, Pakistan

Project Management and Delivery

E-Comras (E-Commerce Platform): Delivered a high-performance e-commerce app, integrating payment systems and meeting client goals.

Fleet Management System: Delivered a real-time fleet management solution, improving operational efficiency.

Coordinated cross-functional teams, ensuring timely project delivery and reducing delays by 15% through proactive risk management.

Agile Methodology Implementation

CRM (Customer Relationship Management): Implemented Agile for CRM solutions, increasing team productivity by 20%.

PMS (Property Management System): Transitioned legacy PMS to Agile, improving responsiveness and reducing cycle times.

Applied Agile and Scrum frameworks to improve team performance and optimize workflows.

Team Leadership and Mentoring

Mentored junior developers and project managers, fostering continuous learning and collaboration.

RMS (Restaurant Management System): Led the optimization of backend services, increasing user retention by 25%.

Built high-performing teams through mentorship and technical guidance.

CI/CD Pipeline Automation

Gym Management System: Automated CI/CD pipelines, reducing build times by 40% using Fastlane, Jenkins, and GitHub Actions.

Optimized testing and deployment for faster, more reliable releases.

Reduced manual intervention, improving time-to-market.

Security and Data Management

Fleet Management & CRM: Implemented data encryption and secure storage, ensuring compliance with privacy regulations.
Focused on data protection and privacy, building user trust and ensuring compliance with GDPR and HIPAA.

Performance Analytics and A/B Testing

RMS & Gym Management: Integrated Firebase Analytics and ran A/B tests, enhancing user engagement.
Used data insights to optimize features, resulting in a 15% increase in conversions and 20% retention improvement.
